---

Shortly after the show, Brendan Kelly announced on his blog that there will be a 10th Anniversary Show DVD released by Crankstrap Productions.

There is very little info about the DVD, things such as release date, additional content, etc. has yet to be announced.

A "rough cut" of The Lawrence Arms playing "Recovering the Opposable Thumb" can be found [here](#) (the video quality is great, but the audio sounds tuned out due to it being unmixed).

You can become a fan of Crankstrap Productions on Facebook [here](#) .

To anyone that did not know the 10th Anniversary Show at the Metro on October 24, 2009 in Chicago. The show featured Mike Park, The Menzingers, and La Plebe as opening acts (it has not yet been confirmed if their sets will be on the DVD)
